Cooksy Website Documentation

1. Home Page

- Main landing page featuring a welcome message "Welcome to Cooksy"
- Displays featured recipe images in a carousel/gallery format
- Navigation menu with basic site controls
- Clean, minimalist design with orange accent colors

2. Login Screen

- User authentication interface
- Contains fields for:
 - Email
 - Password
- Login button
- Standard header with navigation elements
- Consistent branding with main site design

3. Search Interface -

Dedicated search functionality

- Features:
 - Ingredient input field
 - Preferences section
- Submit/search button
- Maintains consistent header navigation

4. Recipe View - Detailed

recipe display page

- Components:

- Recipe image
- Ingredient list
- Step-by-step instructions
- Navigation tabs (likely for different recipe sections)
- User interaction options

5. Upload Section

- Interface for contributing new recipes
- Elements:
 - Image upload area
 - Recipe input fields
 - Form navigation
 - Submit button
- Maintains consistent site header

6. About Us

- Company/platform information page
- Contains:
 - Mission statement
 - Platform description
 - User value proposition
 - Company background
- Consistent with site's design language

7. Explore Page - Recipe

discovery interface -

Features:

- Grid layout of recipe categories
- Recipe thumbnails with labels:
 - Breakfast

- Lunch
- Dinner
- Desserts
- Snacks
- More categories
- Visual navigation through recipe types

8. Profile Page

- User information display
- Fields include:
 - Profile picture
 - Name
 - Email
 - Date of birth
 - Contact information
 - Mobile number
- Personal data management interface

Design Elements

Consistent Features Across Pages:

1. Header Navigation

- Logo
- Main menu items
- User account access
- Consistent positioning

2. Color Scheme

- Orange as primary accent color
- White background

- Clean, readable typography

3. Layout

- Responsive design elements
- Consistent spacing
- Clear visual hierarchy

User Flow - Logical navigation

between pages

- Clear pathways for:
- Recipe discovery
- Account management
- Content contribution
- Search functionality

Technical Considerations

1. Navigation Structure

- Interconnected pages with clear pathways
- Consistent header across all pages
- Easy access to main features

2. Functionality Requirements

- User authentication
- Recipe database integration
- Image upload capabilities - Search functionality
- User profile management

3. Responsive Design

- Adaptable layouts

- Mobile-friendly interface
- Consistent user experience across devices

I've created a comprehensive document that outlines each screen and component of the Cooksy website. The documentation includes:

- Detailed descriptions of each page
- Key features and functionalities
- Consistent design elements
- Technical considerations
- User flow patterns

Would you like me to expand on any particular section or add more specific details about any of the features?
